Give a Sustainable Future to Your Business with **SAP EHS**

KloudData
Smart • Agile • Enterprise
The different functionalities of SAP Environment, Health and Safety Management support various environmental, occupational and product safety processes, regulatory compliances and corporate responsibilities.

**With SAP EHS, you can:**

- Manage environment, health and safety, industrial hygiene, occupational health processes, compliance for product safety, hazardous substances, dangerous goods and waste management.
- Ensure compliance with global environmental laws and policies – and reduce associated costs, efforts, risks on plant and corporate levels.
- Comply with product and material compliance regulations for all industries and help secure the right to market your products.
- Enable visibility of environment, health and safety risks with predefined analytics that rapidly identify exceptions needing corrective actions.
- Ensure compliance with worldwide recycling legislation for packaging, batteries, and WEEE (Waste Electrical & Electronic Equipment).

Leverage KloudData’s full services portfolio to help achieve your compliance objectives:

- Business/solution consulting
- Product/module implementation
- One of the very few vendors who is well-versed in SAP EHS solution
- Successfully implemented SAP EHS DGM (Danger Goods Management) at JSR Micro
- Certification as PMP® and ITIL®
- Pre built accelerators for Dangerous Goods declaration
